PROFESSIONAL SUMMARY

A well-organized, creative and goal-oriented under-graduate possessing an excellent communication, problem-solving and leadership skills with a flair to explore suitable avenues in Electronics And Communication Engineering while developing advanced projects with efficiency and quality.

SKILLS

Data Science : Python, Power bi, SQL, Machine Learning, Deep Learning, Statistics

Frontend : React.js, HTML/CSS, JavaScript.

Backend : Node.js, Express.js ,MongoDB, Fire base, SQL, Python, Java, C, C++, C#, Arduino IDE

Tools : Git, Visual Studio, Pycharm, Eclipse, Android Studio, Jupyter Notebook, Oracle, SQL Database

Other Skills : Framer, Figma, Canva, MS Office

Experience

Intern (Web Development)

Nov 2024-Dec 2024

Prodigy Infotech (Hyderabad, India)

- Acquired practical skills in HTML, CSS, JAVASCRIPT Through comprehensive training.
- Perform a tasks on Build a Websites on Stop Watch, Shopper, Interactive Navigation Menu

Codsoft (Hyderabad, India)

Jan 2025-Feb 2025

- Acquire practical skills in HTML, CSS, JAVASCRIPT Through comprehensive training.
- Perform a tasks on Build a websites on Calculator, My Profile, Food Bazar, Tribute Page.

Intern (Graphic Desining)

Jan 2025-Feb 2025

Codsoft (Hyderabad, India)

- Acquire practical skills in Figma, framer, canva Through comprehensive training.
- Perform a task on Login Page, E-mail Template, food order menu.

Projects

Shopping Cart (React.js, MongoDB, Node)

- Used the MERN stack to develop a feature Advance shopping cart website.
- Implemented a Secure Login and authentication functionality.

IOT smart vehicle parking with RFID smart card payment system (Arduino UNO, IOT sensors) - Mini Project

- Used the Arduino Uno, IOT sensors, RFID smart card for advance and safety parking system.
- Implemented a Secure Login, Interact with drivers, smart payment system.

Chatmood App (Android Studio)

- Used the android studio application to develop the app for android users with secure login credentials and safe database management.

Library Management (java)

- This consists of search option, remove books, adding of books, author by java programming language

A MULTI-PERSPECTIVE FRAUD DETECTION METHOD FOR MULTI-PARTICIPANT E-COMMERCE TRANSACTIONS
----- Major project

- Developed a real-time fraud detection system using Support Vector Machines (SVM) that integrates multi-participant data (buyers, sellers, payment systems) to enhance accuracy and reduce false positives in e-commerce transactions.
- Performed end-to-end implementation including data preprocessing, feature extraction, model training, and visualization using Python, Django, Pandas, Scikit-learn, and Matplotlib to identify and prevent fraudulent activities in complex ecosystems.

Car sales (Statistics, Machine Learning, powerbi)

- The goal is to explore how supervised learning models can be used to predict the price of a second hand car, based on the information contained in this dataset. We will also study how unsupervised learning techniques can be used to identify clustering patterns in this dataset.

Student Exams Scores Analysis (Statistics, Machine Learning, powerbi)

- The goal is to explore how supervised learning models can be used to predict the student performance in examination, based on the information contained in this dataset. We will also study how unsupervised learning techniques can be used to identify clustering patterns in this dataset

Education

Mother Teresa Institute Of Science and Technology, sathupally	2021- 2025
Electronics and communication Engineering in Bachelor of Technology	
Aggregate: 82%	
Vidhya Bharathi Junior College, sathupally	2019 - 2021
MPC in Intermediate	
Aggregate: 92.8%	
Nirmal Hrudai High School, Khammam	2018 - 2019
SSC	
Aggregate: 87%	

Certificates

Certified Web Development – web Developer (2024)	python
Online Internship – Prodigy infotech	Online course – Great Learning
Certified Web Development – web Developer (2025)	Introduction To Cyber security
Online Internship – Codsoft	Online Course - Cisco
C language Beginner	Introduction to HTML
Online course – mindluster	Online Course – Sololearn

Achievements

- Graduated with High GPA.
- Successfully completed a web development internship.
- Received Academic Awards.
- Held a leadership Position in class
- Participated in Chip Designing
